01 Planning: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\01_Planning\00_01_Planning_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\01_Planning\01A_Strategy_Positioning_Prompt.md`
- `..\01_Planning\01B_Market_Calibration_Prompt.md`
- `..\01_Planning\01C_Budget_Discipline_Prompt.md`
- `..\01_Planning\01D_Timeline_Control_Prompt.md`
- `..\01_Planning\01E_Risk_Mitigation_Prompt.md`
- `..\01_Planning\01F_Weekly_Operating_Cadence_Prompt.md`
- `..\01_Planning\01G_Failure_Mode_Response_Gates_Prompt.md`
- `..\01_Planning\01H_PreListing_GoNoGo_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\01_Planning\BUD-001_Variance_Compliance_Execution_Prompt.md`
- `..\01_Planning\BUD-002_Setup_Installation_Execution_Prompt.md`
- `..\01_Planning\BUD-003_Marketing_Launch_Execution_Prompt.md`
- `..\01_Planning\BUD-004_Operations_Start_Execution_Prompt.md`
- `..\01_Planning\BUD-005_Maintenance_Reserve_Execution_Prompt.md`
- `..\01_Planning\BUD-006_Compliance_Insurance_Execution_Prompt.md`
- `..\01_Planning\BUD-007_Contingency_Buffer_Execution_Prompt.md`
- `..\01_Planning\BUD-008_Contingency_Spend_Rule_Enforcement_Execution_Prompt.md`
- `..\01_Planning\BUD-MASTER_Financial_Tracker_Execution_Prompt.md`
- `..\01_Planning\PLN-001_Performance_Logging_Execution_Prompt.md`
- `..\01_Planning\RSK-001_Compliance_Delay_Review_Execution_Prompt.md`
- `..\01_Planning\RSK-002_Risk_Register_Execution_Prompt.md`
- `..\01_Planning\RSK-005_Slow_Booking_Pace_Review_Execution_Prompt.md`
- `..\01_Planning\TIM-001_Design_Theme_Lock_Execution_Prompt.md`
- `..\01_Planning\TIM-002_Timeline_Execution_Prompt.md`
- `..\01_Planning\TIM-003_Timeline_Integrity_Verification_Execution_Prompt.md`
- `..\01_Planning\TIM-004_Timeline_Milestone_Update_Execution_Prompt.md`
- `..\01_Planning\TIM-005_Weekly_Checkpoint_Log_Execution_Prompt.md`
- `..\01_Planning\TIM-006_Weekly_Planning_Audit_Execution_Prompt.md`
- `..\01_Planning\TIM-007_Go_Live_Readiness_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\01_Planning\01_Completion_Rule_Final_Audit_Prompt.md`
- `..\01_Planning\01_Planning_Artifact_Generation_Prompt.md`
- `..\01_Planning\01_Planning_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\01_Planning\01_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.
- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.
- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

02 Property Design: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\02_Property_Design\00_02_Property_Design_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\02_Property_Design\02A_Strategy_Identity_Prompt.md`
- `..\02_Property_Design\02B_Floorplans_Measurement_Prompt.md`
- `..\02_Property_Design\02C_Interior_Room_Guides_Prompt.md`
- `..\02_Property_Design\02D_Materials_Finishes_Specs_Prompt.md`
- `..\02_Property_Design\02E_Brand_Style_Themes_Prompt.md`
- `..\02_Property_Design\02F_Safety_Accessibility_Compliance_Prompt.md`
- `..\02_Property_Design\02G_Formal_Approvals_Gate_Prompt.md`
- `..\02_Property_Design\02H_Photo_Readiness_Gate_Prompt.md`
- `..\02_Property_Design\02I_Final_Release_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\02_Property_Design\AP-001_Layout_Signoff_Gate_Execution_Prompt.md`
- `..\02_Property_Design\AP-002_Interior_Design_Signoff_Gate_Execution_Prompt.md`
- `..\02_Property_Design\AP-003_Brand_Standards_Signoff_Gate_Execution_Prompt.md`
- `..\02_Property_Design\AP-004_Room_Styling_Signoff_Gate_Execution_Prompt.md`
- `..\02_Property_Design\AP-005_Safety_Accessibility_Signoff_Gate_Execution_Prompt.md`
- `..\02_Property_Design\AP-006_Final_Property_Design_Release_Gate_Execution_Prompt.md`
- `..\02_Property_Design\FLR-001_Floorplan_Constraints_Audit_Prompt.md`
- `..\02_Property_Design\PR-001_Front_Entryway_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-002_Great_Room_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-003_Kitchen_Dining_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-004_Primary_Bedroom_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-005_Primary_Bathroom_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-006_Secondary_Bedroom_1_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-007_Secondary_Bedroom_2_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-008_Second_Bathroom_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-009_Den_Photo_Readiness_Execution_Prompt.md`
- `..\02_Property_Design\PR-010_Covered_Patio_Photo_Readiness_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\02_Property_Design\02_Completion_Rule_Final_Audit_Prompt.md`
- `..\02_Property_Design\02_Property_Design_Artifact_Generation_Prompt.md`
- `..\02_Property_Design\02_Property_Design_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\02_Property_Design\02_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.
- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.
- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

03 Furnishing Procurement: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\03_Furnishing_Procurement\00_03_Furnishing_Procurement_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\03_Furnishing_Procurement\03A_Strategy_Budget_Controls_Prompt.md`
- `..\03_Furnishing_Procurement\03B_Inventory_Master_Plan_Requirements_Prompt.md`
- `..\03_Furnishing_Procurement\03C_Inventory_Tracker_Status_Prompt.md`
- `..\03_Furnishing_Procurement\03D_Sourcing_Vendor_Execution_Prompt.md`
- `..\03_Furnishing_Procurement\03E_Restoration_DIY_Quality_Gate_Prompt.md`
- `..\03_Furnishing_Procurement\03F_Logistics_Delivery_Gate_Prompt.md`
- `..\03_Furnishing_Procurement\03G_Procurement_Shipping_Reconciliation_Prompt.md`
- `..\03_Furnishing_Procurement\03H_Warranties_Manuals_Gate_Prompt.md`
- `..\03_Furnishing_Procurement\03I_Section_Release_Readiness_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\03_Furnishing_Procurement\INV-001_to_007_Master_Inventory_Execution_Prompt.md`
- `..\03_Furnishing_Procurement\PROC-001_to_007_Procurement_Logistics_Execution_Prompt.md`
- `..\03_Furnishing_Procurement\VET-001_Used_Item_Vetting_Protocol_Execution_Prompt.md`
- `..\03_Furnishing_Procurement\WAR-001_Warranty_Claim_Readiness_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\03_Furnishing_Procurement\03_Completion_Rule_Final_Audit_Prompt.md`
- `..\03_Furnishing_Procurement\03_Furnishing_Procurement_Artifact_Generation_Prompt.md`
- `..\03_Furnishing_Procurement\03_Furnishing_Procurement_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\03_Furnishing_Procurement\03_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.
- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.
- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

04 Setup Execution: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\04_Setup_Execution\00_04_Setup_Execution_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\04_Setup_Execution\04A_Timeline_Phase_Control_Prompt.md`
- `..\04_Setup_Execution\04B_Site_Prep_Installations_Prompt.md`
- `..\04_Setup_Execution\04C_Furniture_Staging_Execution_Prompt.md`
- `..\04_Setup_Execution\04D_Room_Installation_Checklists_Prompt.md`
- `..\04_Setup_Execution\04E_Smart_Home_Tech_Deployment_Prompt.md`
- `..\04_Setup_Execution\04F_Staging_Standards_Styling_Consistency_Prompt.md`
- `..\04_Setup_Execution\04G_Final_Readiness_Audit_Gate_Prompt.md`
- `..\04_Setup_Execution\04H_Photography_Media_Readiness_Prompt.md`
- `..\04_Setup_Execution\04I_Launch_Handoff_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\04_Setup_Execution\FIN-001_GoLive_Final_Readiness_Audit_Prompt.md`
- `..\04_Setup_Execution\PH-001_Phase1_Infrastructure_Prep_Gate_Execution_Prompt.md`
- `..\04_Setup_Execution\PH-002_Phase2_Major_Furnishings_Gate_Execution_Prompt.md`
- `..\04_Setup_Execution\STG-001_Triple_Sheet_and_Styling_Execution_Prompt.md`
- `..\04_Setup_Execution\TECH-001_Smart_Home_Deployment_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\04_Setup_Execution\04_Completion_Rule_Final_Audit_Prompt.md`
- `..\04_Setup_Execution\04_Setup_Execution_Artifact_Generation_Prompt.md`
- `..\04_Setup_Execution\04_Setup_Execution_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\04_Setup_Execution\04_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.

- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.
- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

05 Operations: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\05_Operations\00_05_Operations_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\05_Operations\05A_Operations_Strategy_SOP_Foundation_Prompt.md`
- `..\05_Operations\05B_Turnover_Protocol_Execution_Prompt.md`
- `..\05_Operations\05C_Supply_Inventory_Control_Prompt.md`
- `..\05_Operations\05D_Task_Calendar_Compliance_Prompt.md`
- `..\05_Operations\05E_Vendor_Service_Operations_Prompt.md`
- `..\05_Operations\05F_Incident_Resolution_Control_Prompt.md`
- `..\05_Operations\05G_Operational_Checklists_Gate_Prompt.md`
- `..\05_Operations\05H_Cross_System_Consistency_Prompt.md`
- `..\05_Operations\05I_Final_Section_Readiness_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\05_Operations\INC-001_Incident_Resolution_Control_Execution_Prompt.md`
- `..\05_Operations\OPS-001_Post_Checkout_Audit_Prompt.md`
- `..\05_Operations\OPS-002_Full_Reset_Cleaning_Execution_Prompt.md`
- `..\05_Operations\OPS-003_Arrival_Quality_Walkthrough_Execution_Prompt.md`
- `..\05_Operations\OPS-004_Consumables_PAR_Restock_Execution_Prompt.md`
- `..\05_Operations\OPS-005_Linen_Rotation_Damage_Audit_Prompt.md`
- `..\05_Operations\OPS-006_Smart_Lock_Code_Refresh_Execution_Prompt.md`
- `..\05_Operations\OPS-007_Vendor_Performance_Review_Execution_Prompt.md`
- `..\05_Operations\OPS-008_Preventive_Safety_Check_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\05_Operations\05_Completion_Rule_Final_Audit_Prompt.md`
- `..\05_Operations\05_Operations_Artifact_Generation_Prompt.md`
- `..\05_Operations\05_Operations_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\05_Operations\05_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.
- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.
- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

06 Guest Experience: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\06_Guest_Experience\00_06_Guest_Experience_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\06_Guest_Experience\06A_Hospitality_Strategy_Alignment_Prompt.md`
- `..\06_Guest_Experience\06B_House_Manual_Safety_Readiness_Prompt.md`
- `..\06_Guest_Experience\06C_Checkin_Checkout_Operations_Prompt.md`
- `..\06_Guest_Experience\06D_Amenities_Control_Prompt.md`
- `..\06_Guest_Experience\06E_Guest_Communications_System_Prompt.md`
- `..\06_Guest_Experience\06F_Reviews_Feedback_Management_Prompt.md`
- `..\06_Guest_Experience\06G_Welcome_Kit_Instay_Presentation_Prompt.md`
- `..\06_Guest_Experience\06H_Experience_Enhancements_Backlog_Prompt.md`
- `..\06_Guest_Experience\06I_CrossSection_Final_Readiness_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\06_Guest_Experience\AM-001_to_018_Amenities_Validation_Execution_Prompt.md`
- `..\06_Guest_Experience\COM-001_Guest_Communications_Execution_Prompt.md`
- `..\06_Guest_Experience\MAN-001_House_Manual_Audit_Prompt.md`
- `..\06_Guest_Experience\REV-001_Review_Recovery_Protocol_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\06_Guest_Experience\06_Completion_Rule_Final_Audit_Prompt.md`
- `..\06_Guest_Experience\06_Guest_Experience_Artifact_Generation_Prompt.md`
- `..\06_Guest_Experience\06_Guest_Experience_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\06_Guest_Experience\06_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.
- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.

- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

07 Marketing Listing: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\07_Marketing_Listing\00_07_Marketing_Listing_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\07_Marketing_Listing\07A_Strategy_KPI_Alignment_Prompt.md`
- `..\07_Marketing_Listing\07B_Photos_Video_Pipeline_Prompt.md`
- `..\07_Marketing_Listing\07C_Listing_Copy_Readiness_Prompt.md`
- `..\07_Marketing_Listing\07D_Channel_Setup_Launch_Gate_Prompt.md`
- `..\07_Marketing_Listing\07E_SEO_Implementation_Prompt.md`
- `..\07_Marketing_Listing\07F_Promotions_Velocity_Control_Prompt.md`
- `..\07_Marketing_Listing\07G_Platform_Optimization_Testing_Prompt.md`
- `..\07_Marketing_Listing\07H_Publish_Quality_Assurance_Prompt.md`
- `..\07_Marketing_Listing\07I_Final_Section_Readiness_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\07_Marketing_Listing\CPY-001_Listing_Copy_Audit_Prompt.md`
- `..\07_Marketing_Listing\KW-001_to_015_SEO_Implementation_Execution_Prompt.md`
- `..\07_Marketing_Listing\PRM-001_to_005_Promotions_Velocity_Execution_Prompt.md`
- `..\07_Marketing_Listing\PV-001_to_035_Photo_Pipeline_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\07_Marketing_Listing\07_Completion_Rule_Final_Audit_Prompt.md`
- `..\07_Marketing_Listing\07_Marketing_Listing_Artifact_Generation_Prompt.md`
- `..\07_Marketing_Listing\07_Marketing_Listing_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\07_Marketing_Listing\07_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.
- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.

- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

08 Pricing Revenue: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\08_Pricing_Revenue\00_08_Pricing_Revenue_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\08_Pricing_Revenue\08A_Revenue_Strategy_Guardrails_Prompt.md`
- `..\08_Pricing_Revenue\08B_Rate_Strategy_Baseline_Prompt.md`
- `..\08_Pricing_Revenue\08C_Dynamic_Pricing_Control_Prompt.md`
- `..\08_Pricing_Revenue\08D_Discounts_Fees_Guardrails_Prompt.md`
- `..\08_Pricing_Revenue\08E_Occupancy_Pricing_Performance_Prompt.md`
- `..\08_Pricing_Revenue\08F_Revenue_Reporting_Prompt.md`
- `..\08_Pricing_Revenue\08G_Payout_Reconciliation_Integrity_Prompt.md`
- `..\08_Pricing_Revenue\08H_CrossSystem_Data_Consistency_Prompt.md`
- `..\08_Pricing_Revenue\08I_Final_Section_Readiness_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\08_Pricing_Revenue\DF-001_to_002_Discount_Guardrails_Execution_Prompt.md`
- `..\08_Pricing_Revenue\DP-001_to_005_Dynamic_Pricing_Execution_Prompt.md`
- `..\08_Pricing_Revenue\REV-001_Payout_Reconciliation_Execution_Prompt.md`
- `..\08_Pricing_Revenue\RPT-001_Monthly_Revenue_Analysis_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\08_Pricing_Revenue\08_Completion_Rule_Final_Audit_Prompt.md`
- `..\08_Pricing_Revenue\08_Pricing_Revenue_Artifact_Generation_Prompt.md`
- `..\08_Pricing_Revenue\08_Pricing_Revenue_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\08_Pricing_Revenue\08_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.
- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.

- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

09 Legal Compliance: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\09_Legal_Compliance\00_09_Legal_Compliance_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\09_Legal_Compliance\09A_Compliance_Strategy_Risk_Shield_Prompt.md`
- `..\09_Legal_Compliance\09B_Licenses_Permits_Prompt.md`
- `..\09_Legal_Compliance\09C_Insurance_Coverage_Prompt.md`
- `..\09_Legal_Compliance\09D_Tax_Registration_Filing_Prompt.md`
- `..\09_Legal_Compliance\09E_Regulations_HOA_Compliance_Prompt.md`
- `..\09_Legal_Compliance\09F_Policies_Contracts_Prompt.md`
- `..\09_Legal_Compliance\09G_Legal_Research_Readiness_Closure_Prompt.md`
- `..\09_Legal_Compliance\09H_House_Rules_Legal_Integrity_Prompt.md`
- `..\09_Legal_Compliance\09I_Liability_Protection_Verification_Prompt.md`
- `..\09_Legal_Compliance\09J_Final_Section_Readiness_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\09_Legal_Compliance\HOA-001_Regulations_Rules_Audit_Prompt.md`
- `..\09_Legal_Compliance\INS-001_Insurance_Coverage_Audit_Prompt.md`
- `..\09_Legal_Compliance\LCP-001_to_004_Permits_Verification_Execution_Prompt.md`
- `..\09_Legal_Compliance\TAX-001_Tax_Registration_Remittance_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\09_Legal_Compliance\09_Completion_Rule_Final_Audit_Prompt.md`
- `..\09_Legal_Compliance\09_Legal_Compliance_Artifact_Generation_Prompt.md`
- `..\09_Legal_Compliance\09_Legal_Compliance_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\09_Legal_Compliance\09_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.

- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.
- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

10 Maintenance: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\10_Maintenance\00_10_Maintenance_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\10_Maintenance\10A_Foundation_Documentation_Prompt.md`
- `..\10_Maintenance\10B_Preventive_Maintenance_Program_Prompt.md`
- `..\10_Maintenance\10C_Repair_Ticket_Workflow_Prompt.md`
- `..\10_Maintenance\10D_Inspections_Program_Prompt.md`
- `..\10_Maintenance\10E_Asset_Register_Lifecycle_Prompt.md`
- `..\10_Maintenance\10F_Utilities_Systems_Monitoring_Prompt.md`
- `..\10_Maintenance\10G_Property_Systems_Manual_Prompt.md`
- `..\10_Maintenance\10H_Emergency_Response_Readiness_Prompt.md`
- `..\10_Maintenance\10I_Vendor_Service_Management_Prompt.md`
- `..\10_Maintenance\10J_Governance_QA_Audit_Cadence_Prompt.md`
- `..\10_Maintenance\10K_ReadyToList_Exit_Criteria_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\10_Maintenance\AST-001_Asset_Lifecycle_Management_Execution_Prompt.md`
- `..\10_Maintenance\INSP-001_to_004_Inspection_Program_Execution_Prompt.md`
- `..\10_Maintenance\PM-001_to_007_Preventative_Maintenance_Execution_Prompt.md`
- `..\10_Maintenance\RPR-001_Repair_Ticket_Triage_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\10_Maintenance\10_Completion_Rule_Final_Audit_Prompt.md`
- `..\10_Maintenance\10_Maintenance_Artifact_Generation_Prompt.md`
- `..\10_Maintenance\10_Maintenance_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\10_Maintenance\10_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.

- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.
- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.

11 Analytics Performance: Prompt Run Order

This document provides the definitive, step-by-step execution order for this specific module. Following this sequence ensures complete documentation generation without missing steps or circular dependencies.

Step 1. Module Initialization Run the standards and run-order file to prime the LLM with the module's baseline rules.

- `..\11_Analytics_Performance\00_11_Analytics_Performance_Run_Order_and_Standards.md`

Step 2. Sequential Workflow Processing Run these prompts in alphabetical order. They build the core strategy and documentation iteratively.

- `..\11_Analytics_Performance\11A_Section_Control_File_Governance_Prompt.md`
- `..\11_Analytics_Performance\11B_Analytics_Strategy_Activation_Prompt.md`
- `..\11_Analytics_Performance\11C_KPI_Dashboard_Readiness_Prompt.md`
- `..\11_Analytics_Performance\11D_Core_Tracker_Operations_Prompt.md`
- `..\11_Analytics_Performance\11E_Guest_Sentiment_Review_Intelligence_Prompt.md`
- `..\11_Analytics_Performance\11F_Pricing_Performance_Analysis_Cycle_Prompt.md`
- `..\11_Analytics_Performance\11G_Weekly_KPI_Command_Center_Prompt.md`
- `..\11_Analytics_Performance\11H_Feedback_Loop_Enforcement_Prompt.md`
- `..\11_Analytics_Performance\11I_Maintenance_Analytics_Integration_Prompt.md`
- `..\11_Analytics_Performance\11J_Cadence_Audit_Discipline_Prompt.md`
- `..\11_Analytics_Performance\11K_ReadyToList_Analytics_Exit_Criteria_Prompt.md`

Step 3. Specific Execution & Feature Tasks Run these functional prompts to generate specific trackers, audits, and checklists as mandated by the sequential workflows.

- `..\11_Analytics_Performance\ANA-001_Pacing_Conversion_Audit_Prompt.md`
- `..\11_Analytics_Performance\FBL-001_Performance_Feedback_Loop_Execution_Prompt.md`
- `..\11_Analytics_Performance\KPI-001_Weekly_Command_Center_Execution_Prompt.md`
- `..\11_Analytics_Performance\SEN-001_Guest_Sentiment_Analysis_Execution_Prompt.md`

Step 4. Module Finalization & Consolidation Run these to verify completion, generate final artifacts, and formally close out the module.

- `..\11_Analytics_Performance\11_Completion_Rule_Final_Audit_Prompt.md`
- `..\11_Analytics_Performance\11_Analytics_Performance_Artifact_Generation_Prompt.md`
- `..\11_Analytics_Performance\11_Analytics_Performance_Task_Completion_Prompt.md`

(Optional) Troubleshooting & Blockers If issues arise during the module, run the SOP challenge prompt.

- `..\11_Analytics_Performance\11_Challenge_Response_SOP_Prompt.md`

Execution Best Practices

- **One Prompt Per Message**: Do not dump multiple prompts into the LLM at once.

- **Verify Outputs**: Before moving to the next prompt, ensure the output complies with the rules defined in the `00_` initialization file.
- **Save Artifacts**: Save generated Markdown and CSV files to the `Completed Research` directory exactly as named by the LLM.
