Audit Date: 2026-04-05
Scope: Complete validation of 03_Furnishing_Procurement folder against prompt pack requirements
Auditor: GitHub Copilot CLI

EXECUTIVE SUMMARY

Overall State

The 03_Furnishing_Procurement section is **well-structured with critical framework gaps**. The section contains **51 total files** with all 9 subsection audit documents (03A-03I) correctly created and properly named. The individual inventory (INV-001 to INV-007) and procurement (PROC-001 to PROC-007) CSV files exist. However, **4 critical completion and oversight documents** are missing, preventing formal section sign-off.

SECTION 2: MISSING DOCUMENTS (Critical Gaps)

✕ MISSING COMPLETION & FRAMEWORK DOCUMENTS

These documents are explicitly required by the prompt pack but do not exist:

Document ID	Expected Filename	Required By Prompt	Impact Level	Purpo
03-Artifact	`03_Furnishing_Procurement_Artifact_Generation.md`	`03_Furnishing_Procurement_Artifact_Generation_Prompt.md`	**MAJOR**	Artifac covera and sc docum
03-Challenge	`03_Challenge_Response_SOP.md`	`03_Challenge_Response_SOP_Prompt.md`	**MAJOR**	Opera for challer recove
03-Completion	`03_Completion_Rule_Final_Audit.md`	`03_Completion_Rule_Final_Audit_Prompt.md`	**CRITICAL**	Final s sign-o
03-Task	`03_Furnishing_Procurement_Task_Completion.md`	`03_Furnishing_Procurement_Task_Completion_Prompt.md`	**CRITICAL**	Maste registr checkl mappi

Impact Analysis:

- These 4 missing documents represent the **final certification layer** required for section sign-off
- All 9 subsection audits (03A-03I) are complete, but lack the consolidated completion reports
- Without these, the section cannot be formally marked "complete" per the Run Order standards
- The operational framework (03A-03I) is strong, but the meta-governance layer is incomplete

SECTION 3: NAMING & ORGANIZATIONAL ISSUES

☑ NAMING COMPLIANCE (Excellent Adherence)

Observation: The 03_Furnishing_Procurement section demonstrates **exceptional naming discipline**. All files follow the structured ID convention precisely.

Aspect	Status	Evidence
Subsection Naming (03A-03I)	☑ EXCELLENT	All 9 files use correct `03[LETTER]_[Title].md` format

Aspect	Status	Evidence
CSV Naming (INV/PROC)	☑ EXCELLENT	All 14 CSV files use correct `[TYPE]-[NUM]_[Description].csv` format
Master Doc Naming	☑ EXCELLENT	INV-MASTER and PROC-MASTER follow convention
Execution Doc Naming	☑ EXCELLENT	VET-001 and WAR-001 properly suffixed with `_Execution`
No Unstable Versions	☑ EXCELLENT	No `v1`, `v2`, `final`, etc. suffixes found
No Duplicates	☑ EXCELLENT	No duplicate same-purpose files detected

⚠ STRUCTURAL OBSERVATIONS

Issue	Current State	Expected State	Impact
INV CSV Filenames	Named after specific items (e.g., `INV-001_L-Sectional_Sofa.csv`)	Could be named by room (e.g., `INV-001_Primary_Bedroom.csv`)	MINOR - Possible inconsistency with prompt intent
Desktop.ini Present	`desktop.ini` and `folderico-red.ico` exist	Not required by prompts	MINOR - Windows artifacts
Archive Structure	`.ARCHIVE` properly segregated	Correctly implemented	CONFIRMED CORRECT ☑

SECTION 4: INCONSISTENCIES & POSSIBLE ISSUES

🔍 ITEMS REQUIRING INVESTIGATION (Not Confirmed Issues)

Item	Observation	Possible Issue	Requires Verification
INV CSV Content	INV-001 contains single item (L-Sectional)	Possible misunderstanding of INV structure	Verify if INV-001 to 007 should be room-based (with multiple items) or item-based (single items)
PROC CSV Content	PROC-001 contains multiple items for Primary Bedroom	PROC files appear room-based	Verify consistency: are INV files also supposed to be room-based?
File Count Mismatch	INV-MASTER mentions "121-item inventory"	Only 7 INV CSV files exist	Verify if additional INV files (INV-008, INV-009, INV-010) mentioned in INV-MASTER should exist as separate files
Budget Baseline	Multiple docs reference $19,001.00 baseline	Consistent across section	Confirm this aligns with 01_Planning BUD-001 allocation
70/20/10 Sourcing Ratio	03A shows 100% New items, 0% Used/DIY	Extreme drift from strategic target	Verify if this is intentional planning state or actual concern

SECTION 5: CONFIRMED CORRECT IMPLEMENTATIONS

☑ THINGS DONE RIGHT

1. **Complete Subsection Framework (03A-03I):** All 9 audit documents exist and are correctly structured ☑
2. **CSV Infrastructure:** All 14 required INV/PROC CSV files exist ☑
3. **Archive Segregation:** `.ARCHIVE` folder properly used for historical reference only ☑
4. **Naming Discipline:** Exceptional adherence to structured ID conventions ☑
5. **Master Wrapper Docs:** INV-MASTER and PROC-MASTER provide navigation and overview ☑
6. **Supporting Protocols:** VET-001 and WAR-001 execution docs exist ☑
7. **No Version Proliferation:** No unstable version suffixes (v1, v2, final) ☑
8. **Property Anchors Consistent:** 142" island, 158" hallway, $19,001.00 budget referenced consistently ☑
9. **YAML Frontmatter Present:** Documents contain proper governance headers ☑
10. **Final Readiness Doc (03I):** Includes Go/No-Go decision matrix ☑

SECTION 6: CATEGORIZED FINDINGS SUMMARY

CRITICAL ISSUES (Block Section Sign-Off)

1. ❌ Missing `03_Completion_Rule_Final_Audit.md` (final section certification)
2. ❌ Missing `03_Furnishing_Procurement_Task_Completion.md` (checklist reconciliation)

MAJOR ISSUES (Degrade Completeness)

3. ⚠ Missing `03_Furnishing_Procurement_Artifact_Generation.md` (artifact coverage documentation)
4. ⚠ Missing `03_Challenge_Response_SOP.md` (failure recovery procedures)

MINOR ISSUES (Low Impact)

5. 📋 Desktop.ini and icon files present (Windows artifacts, not required)
6. 📋 Possible INV file structure inconsistency (item-based vs room-based)

ITEMS NEEDING VERIFICATION (Not Confirmed Issues)

7. 🔍 INV file structure intent (single-item vs multi-item per file)
8. 🔍 Missing INV-008, INV-009, INV-010 files (referenced in INV-MASTER but not present)
9. 🔍 70/20/10 sourcing ratio extreme drift (100% New vs 70% Used target)

SECTION 7: RECOMMENDED ACTION PLAN

Phase 1: Critical Completion Documents (Priority 1)

Create the 2 missing critical documents required for section sign-off:

1. `03_Completion_Rule_Final_Audit.md`
   - Purpose: Final audit of subsections A-I against completion rules
   - Content: Evidence table, blocker list, section verdict
   - Required for: Formal section certification
2. `03_Furnishing_Procurement_Task_Completion.md`
   - Purpose: Master task registry mapping checklist to repository evidence
   - Content: Task-by-task status table, evidence paths, completion summary
   - Required for: Checklist reconciliation and handoff to Section 04

Phase 2: Major Framework Documents (Priority 2)

Create the 2 missing framework documents:

3. `03_Furnishing_Procurement_Artifact_Generation.md`
   - Purpose: Artifact coverage table and structural schema documentation
   - Content: Coverage table, schema definitions, generation rules
   - Required for: System documentation completeness
4. `03_Challenge_Response_SOP.md`
   - Purpose: Operational procedures for procurement failures and blockers
   - Content: Trigger conditions, escalation workflows, recovery paths
   - Required for: Operational resilience

Phase 3: Verification & Cleanup (Priority 3)

5. **Verify INV File Structure Intent**
   - Question: Are INV-001 to 007 supposed to be room-based (like PROC files) or item-based?
   - Current State: INV-001 contains single item; PROC-001 contains multiple items
   - Action: Review prompt intent and either restructure INV files or confirm current state is correct
6. **Verify Missing INV-008, INV-009, INV-010**
   - INV-MASTER references: "INV-008: Primary Bathroom", "INV-009: Secondary Bathroom", "INV-010: Hallway & Entry"
   - Current State: These files don't exist
   - Action: Create these files if needed, or update INV-MASTER to reflect actual scope
7. **Remove Windows Artifacts** (Optional)
   - Delete `desktop.ini` and `folderico-red.ico` (not required by prompts)
8. **Verify Budget Alignment**
   - Confirm $19,001.00 baseline matches 01_Planning BUD-001 allocation
   - Verify 03A budget drift findings are accurate

SECTION 8: PROPOSED EXACT CHANGES

CREATE NEW FILES:

```
03_Furnishing_Procurement/03_Completion_Rule_Final_Audit.md
03_Furnishing_Procurement/03_Furnishing_Procurement_Task_Completion.md
03_Furnishing_Procurement/03_Furnishing_Procurement_Artifact_Generation.md
03_Furnishing_Procurement/03_Challenge_Response_SOP.md
```

DELETE: 03_Furnishing_Procurement/folderico-red.ico
```

NO RENAMES REQUIRED:

All existing files follow correct naming conventions.

NO ARCHIVE MOVES REQUIRED:

Archive is properly segregated; no active files need archiving.

SECTION 9: COMPLETION VERDICT

Current Status: ⚠ SUBSTANTIALLY COMPLETE - CERTIFICATION LAYER MISSING

Reasoning:

- ☑ All 9 subsection audit documents (03A-03I) exist and are correctly structured
- ☑ All 14 CSV files (INV-001 to 007, PROC-001 to 007) exist
- ☑ Supporting execution documents (INV-MASTER, PROC-MASTER, VET-001, WAR-001) exist
- ☑ Naming conventions followed with exceptional discipline
- ✕ Missing 4 critical framework/completion documents (artifact generation, challenge SOP, final audit, task completion)
- 🔍 Possible INV file structure inconsistency needs verification

Required to Achieve "COMPLETE" Status:

1. Create 2 critical completion documents (final audit + task completion)
2. Create 2 major framework documents (artifact generation + challenge SOP)
3. Verify INV file structure intent and resolve inconsistency if needed
4. Verify if INV-008, INV-009, INV-010 should exist
5. Confirm budget baseline alignment with 01_Planning

Estimated Effort to Complete:

- **Phase 1 (Critical):** ~2-3 hours (create 2 completion documents)
- **Phase 2 (Major):** ~1-2 hours (create 2 framework documents)
- **Phase 3 (Verification):** ~1 hour (verify structure, update as needed)
- **Total:** ~4-6 hours

SECTION 10: CONTENT QUALITY OBSERVATIONS

Subsection Audit Quality (03A-03I)

Based on sample review of active documents:

Document	Content Quality	Observations
03A	☑ HIGH	Includes detailed sourcing reconciliation table, budget cap summary, identifies 100% New vs 70/20/10 target drift
03I	☑ HIGH	Comprehensive readiness matrix with Go/No-Go decisions, critical blocker identification, remediation path
INV-MASTER	☑ HIGH	Clear room-based structure table, operational standards, supplementary zone documentation
00-Standards	☑ HIGH	Complete governance rules, execution sequence, operational logic rules properly documented

Overall Assessment: The existing documentation demonstrates **strong operational rigor** and **high attention to detail**.

VALIDATION CERTIFICATION

This validation report confirms:

1. ☑ All 9 subsection audit documents (03A-03I) exist and are correctly structured
2. ☑ All 14 CSV inventory/procurement files exist
3. ☑ Naming conventions followed with exceptional discipline
4. ☑ Archive segregation correctly implemented

5. ❌ 4 critical completion/framework documents missing
6. 🔍 Possible INV file structure inconsistency requires verification
7. ☑ No files have been modified during this review (validation-only pass)

Next Step: Await user approval before executing any changes.

COMPARISON TO 01_PLANNING SECTION

Key Differences:

- **03_Furnishing_Procurement:** Strong operational layer (03A-03I complete), weak certification layer (missing 4 docs)
- **01_Planning:** Strong underlying systems (BUD/TIM/RSK/MKT complete), weak framework layer (missing 10 docs)
- **03 Advantage:** Better naming discipline, fewer critical gaps, clearer completion path
- **01 Advantage:** More comprehensive underlying data systems

Overall: Section 03 is **closer to completion** than Section 01, requiring only 4 documents vs 10-12 for Section 01.
